FRICK ART REFERENCE LIBRARY
10 EAST 71 STREET
NEW YORK, NY 10021

If newspapers are the first draft of history, it follows that art journals are the first draft of art history. With more than 2,500 journals covering topics ranging from practical advice on design trends to loftier grapplings with aesthetics, the periodical collection of the Frick Art Reference Library captures the interest of specialists in all fields of the arts.

Many of the articles in these journals are indexed in the Library's world-renowned *Frick Art Reference Library Original Index to Art Periodicals*, which dissects the content of journals dating back to the mid-nineteenth century, many of which are uniquely available at the Frick.

Complementing this extraordinary, but still conventional, collection of art periodicals are the Frick's special collections of testimonials of art critics. These include the personal scrapbooks of turn-of-the-twentieth-century art critic Royal Cortissoz, and papers and manuscripts by his arch rival Sadakichi Hartmann.

At the Frick, art reviews were tipped into bound copies of exhibition and auction catalogues or filed with images in the Photoarchive. Today these contemporary commentaries evoke reactions to displays that might otherwise have been lost.
