***The Frick Collection—Essential Guide* (Available for preorder; in stock December 10)**

Reintroducing audiences to the museum's remarkable holdings at this pivotal moment in its history, *The Frick Collection—Essential Guide* is a stunning keepsake and an invaluable reference for art lovers. This publication reflects the greater number of works that will be on view at the Frick's renovated home, many in the new second-floor galleries, which were

created during the museum's current renovation and enhancement project. The volume features beloved highlights as well as more recent acquisitions, such as portrait medals and collections of porcelain. The book is authored by Aimee Ng, the Frick's John Updike Curator, in collaboration with Marie-Laure Buku Pongo, Associate Curator of Decorative Arts, and Giulio Dalvit, Associate Curator.

Showcasing paintings, sculpture, decorative arts, furniture, and more, the book is organized chronologically and is designed to offer a sense of the connections between, and diversity among, contemporaneous artistic production in Europe from the Renaissance through the late nineteenth century. Richly illustrated with new photography of works in different genres and media, this 160-page paperback is published by The Frick Collection in association with Paul Holberton Publishing.

ABOUT THE FRICK COLLECTION

Housed in one of New York City's last great Gilded Age homes, The Frick Collection provides intimate encounters with one of the world's foremost collections of fine and decorative arts. Open since 1935, the institution originated with Henry Clay Frick (1849–1919), who bequeathed his Fifth Avenue residence and collection of European paintings, sculpture, and decorative arts for the enjoyment of the public. The museum's holdings, which encompass masterworks from the Renaissance through the late nineteenth century, have grown over the decades, more than doubling in number since the opening of the museum. The Frick Art Research Library was founded more than one hundred years ago by Henry Clay Frick's daughter Helen Clay Frick. It is today a leading art history research center that serves students, scholars, and the public.
